

FCC Commissioners  
The Federal Communications Commission RE: Docket 04-435  
445 12th Street, SW  
Washington, DC 20554

Dear FCC Commissioners ,

IF terrorists use cell phones to coordinate activities onboard an inflight aircraft, other passengers could also use cell phones to alert authorities that the plane has been taken over. So that when that plane nears a populated city a military plane could shoot it down knowing that it is going to be used as a bomb to collide into a potentially civilian rich target such as a sports stadium.

Also, when flights change at layovers at the last minute and there is no time to call concerned family members at the terminal.

Sincerely,

Kevin Back
